Telecom2009: Broadband and Beyond Announces Call for Telecom Technology Papers and Session Proposals

Telecom2009 at the NAB Show Focuses on IPTV, Broadband Applications

Vienna, VA – November 20, 2008 – [Team Lightbulb](#)™, a premier conference, trade show and event management organization is accepting proposals for telecom technical papers and IPTV sessions for [Telecom2009: Broadband and Beyond](#). Telecom2009, produced by Team Lightbulb, features sessions on the Business of IPTV and Telecom Technology. Team Lightbulb will also offer again the popular exhibit tours that connect the sessions with the technology on the NAB Show floor, including a dedicated IPTV Pavilion.

Telecom2009: Broadband and Beyond will be held at the [NAB Show](#), April 19-23, 2009, at the Las Vegas Convention Center.

Team Lightbulb anticipates receiving proposals covering a wide range of aspects of IPTV and broadband applications including convergence of fixed and mobile communications, WiMAX and other wireless technologies, VoIP and other voice applications, gaming, social media and interactive advertising.

Now in its third year, Telecom2009 at the NAB Show has become an important forum for business and technical professionals from telecom carriers and vendors looking for cutting edge information on business and technical aspects of IPTV and broadband and how they relate to telecom. Registration for last year's conference was double the previous year.

Proposals can be made at [Telecom Technology Papers](#) and [IPTV Session Proposals](#) for the respective sessions. Submissions must be made by December 12, 2009; accepted presenters will be notified by January 15, 2009. Last year's presentations can be downloaded from [Telecom2008 Presentations](#).

"We have been extremely pleased with the continued growth and interest in Telecom2009 at the NAB Show. In addition to the sessions, Telecom2009 gives telecom professionals the opportunity to see the vast array of exhibits related to the production, distribution and acquisition of content," said John Abel, partner at Team Lightbulb.

About the 2009 NAB Show

The NAB Show is the world's largest electronic media event covering the creation, management and delivery of next-generation content across multiple platforms – from televisions, radios and computers to phones, the big screen, gaming and beyond. Complete details are available at www.nabshow.com.
